

2026 U.S. RV Registration & Sales Tax by State

Category: travel | Data retrieved: 2026-08-23

Typical RV (motorhome / travel-trailer) registration-and-plate fee ranges and state sales-tax rates, by state. Registration is frequently weight- or value-based and may include county fees not captured here. Sales-tax rates are the state-level rates from the Tax Foundation 2026 midyear table; RV registration fee ranges are typical annual figures compiled from aggregated RV fee guides and flagged as estimates where a state DMV schedule was not individually verified.

by-state-registration

Disclaimer

This dataset is an informational reference only and is not legal, tax, or financial advice. RV registration and plate fees are typically weight- or value-based and frequently include county, parish, or local fees that are not reflected in the ranges shown. State sales-tax rates are the state-level rates and exclude local add-on taxes that may apply at the point of sale. Always verify the exact fee and tax for your specific RV with the relevant state DMV, DOT, or revenue department before making any purchase or registration decision.
